## Chairman's Report

We have just returned from the Vintage Corvette Judging Meet and again it was great. We had the opportunity to judge 7 excellent cars, had a large turnout of membership and had a very experienced group of judges. I would like to thank the Carolinas and Florida Chapter Members who were there to help judge. Special thanks to Greg and Dee Wyatt who were great hosts and provided their support and wonderful facility to the chapter. If you have not seen Vintage Corvette, you must put this on your to-do list. Great cars and a museum of wonderful things.

We also held our Annual Meeting and elections for 2025. The current officers have agreed to serve another year and were reelected. Our 2025 show schedule is set and starts with Corvette Expo in the Spring, Buyavette in June, and back to Vintage Corvette in October.

Under new business, I expressed our concern for all of those severely impacted by hurricane Helene (and now Milton). The Chapter was authorized by vote to donate all available funds in priority order to:

- Impacted members
- Impacted member families
- Samaritan's Purse
- Red Cross

We will distribute grants in the name of the S. E. Chapter in the amount of \$1,000 each. PLEASE CONTACT ANY OFFICER IF YOU KNOW OF A MEMBER OR MEMBERS FAMILY WHO HAS SUFFERED SERIOUS INJURY DUE TO THE STORMS.

We know our small amount of funds cannot offset the loss of many, but hopefully will provide some small comfort.

Thanks,  
Tom Beuglas

## Vice Chairman's Report

Summer is now behind us and cooler fall colors will be arriving soon.

Both the NCRS National Convention and our Fall Color Tour meet provided excellent Corvette activities with our December Christmas party fast approaching. Pictures of the NCRS Convention in Hampton, VA can be found at:

<https://photos.google.com/share/AF1QipN4ULQIT-WRzLd1Xz3nBgKXjLtbrAw1Y2DsStamS6Vxy5EwdwvdpYxZSvMYntD7tQ?key=eGdGQ1FCWE05ODBxS1BENHRIWVd5QUJyNzZsWEZB>

One of the exciting features of the convention was the appearance of the new 1,064 HP ZR1 driven in by Josh Holder and Tadge Juechter.

Rich Mauser details the Fall meet at Greg Wyatt's Vintage Corvette dealership along with pictures of the award winners.

Rich also provided a picture below of what Greg's dealership may have looked like when it opened in 1953 as Davis Chevrolet.

A quick reminder that our annual Christmas party and charity raffle will be on December 7 at The 57<sup>th</sup> Fighter Group restaurant in Atlanta. Please refer to Marianne's email notifications for further details. We hope to see you there.

## Judging Chairman's Report

Our SE NCRS Fall Event was held at Greg Wyatt's Vintage Corvettes in Summerville, Ga. on Friday and Saturday, October 4 and 5. I'd like to take this opportunity to thank Greg Wyatt for once again accommodating our event. He even went out of his way to arrange additional trailer parking with his friendly neighbor's back lot. The feedback received from attendees has been more than positive.

On Friday, all our Flight-judged cars arrived, operations judging was completed and the cars placed inside the building. Flight Judging took place on Saturday. This was a two-day, five-point event.

Our judging school was on CDCIF and was presented by Dave DelVecchio. John Ballard also supplemented with photo examples of many VIN & trim tags as well as motor stamp examples (good and not typical) and displayed all for comment and questions. Thank you, Dave and John, for your presentations.

Greg and Dee surprised us on Friday with gourmet donuts, apple fritters and honeybuns. Naturally, they were warmly received by our group. Thank you, Greg and Dee.

Eighteen to twenty members/attendees gathered Friday evening at Thatcher's BBQ for a delicious dinner. Almost all were seated at two tables, which gave us the opportunity to visit with each other.

Mark Donnally sponsored our Papa John's pizza lunch on Saturday, including sodas and a tasty assortment of desserts. No one left hungry! Thank you, Mark, for your generosity to the SE NCRS Chapter.

We had two categories of vehicles at our event.

The following cars were presented for Flight judging, and awards were as follows:

- |                               |            |
|-------------------------------|------------|
| 1953 owned by John Thornton   | Top Flight |
| 1964 owned by David Roosevelt | Top Flight |
| 1966 owned by Mike Ingrassia  | Top Flight |
| 1978 owned by Roman Jaskin    | Top Flight |
| 1990 owned by John Thornton   | Top Flight |
| 2003 owned by Ralph Goode     | Top Flight |
| 2004 owned by Ed Dacus        | Top Flight |

And, finally, we had our Sportsman cars:  
1967 owned by Chris Henry  
2008 owned by Mickey Archer  
2018 owned by Bob Kinstrey

A very special congratulations to all!

Judges and tabulators--thank you all for volunteering your hard work. We had an excellent turnout from the entire region--with judges from Alabama, Florida, Georgia, Indiana, Kentucky, South Carolina and Tennessee. Without your efforts, none of this would be possible. Again, your time, effort and knowledge are appreciated by all.

We also had an additional award, the Women's/People's choice award. All Flight and Sportsman cars were eligible. The award went to John Thornton with his #143, 1953. Congratulations, John!

Hope to see all of you at our Spring Meet in Pigeon Forge, Tenn. in March at the Corvette EXPO on March 13, 14 & 15. Again, this will be a two-day (Friday & Saturday), five-point event for SE NCRS. Details for the event will be announced soon. Also, details for lodging will follow, once registration is made available.

As always, please feel free to contact me with any judging questions or concerns.

## Secretary / Membership / Event Administrator Report

I am happy to report we have added four new members to our chapter since the last edition of the Flagbearer! Please join me in welcoming all our new members to the Southeast Chapter!

August 2024:       2648 – Jeffrey Priluck, Atlanta, GA  
                          72124 – Jerry Smalley, Alpharetta, GA

September 2024:   51408 – Gary James, Tampa, FL  
                          72160 – William Walters, Clarksdale, MS

As of September 30, 2024, we have a total membership of 116 members, which has remained unchanged since June 2024. Unfortunately, we had 4 members whose Southeast Chapter memberships expired during the third quarter of the year and

decided to let their memberships lapse so they were removed from the active chapter membership list.

I continue to get reports from the NCRS on new members who have joined NCRS National and who live in our region. There have been a total of 9 new NCRS National members in our region this past quarter whom I have invited to join our Chapter. Hopefully follow-up with these contacts will continue to result in adding new members to our Chapter.

Dues help to ensure the Chapter's continued success in fulfilling its purpose of preservation, restoration, and enjoyment of early Corvettes and to conduct meetings, tours, and programs of any sort relating to the development and history of Corvettes.

Dues may be paid online at NCRS.org, services, renewal membership, or by mail to the address below. Chapter dues are \$30 per year. I am sending out dues notices on a monthly basis. However, you may contact me at any time if you are unsure about the status of your dues.

### C6 Visor Mirror Cover Failures

If you own or have owned a C6 Corvette you probably have heard, seen or experienced the failure of the visor vanity mirror cover. The resolution to this involves a couple choices. The cheapest is the replacement of the cover itself as the failure is usually related to the breaking of one or both plastic pivot pins on the cover. The covers can be purchased online cheaply, \$12.00 to \$20.00 for a pair of reproduction covers. The flaw in this choice is the actual replacement of the cover. If you are one of the many who have tried this, you probably have found the weak point in this process.

This repair involves using a hook tool to pry the metal hinge up and away from the visor and to pull it over the plastic pivot pin on the new cover. The problem lies with the amount resistance the metal hinge has and the amount of effort it takes to pull it back, combined with the poor design attachment of the mirror assembly to the visor.

The failure occurs when the mirror assembly becomes detached from the fiber backing inside the visor which now creates a damaged and unrepairable visor.

I have done a few of these and learned early on a trick to support the mirror and light portion while still having enough leverage to move the metal hinge. Here are the items you will need. I use the smaller piece of wood as a backer on the visor wrapped with a cloth to prevent snagging. The longer piece is then clamped over the mirror assembly. Now when you are prying on the metal hinge, the mirror is supported to the visor.

Using the support items, you are ready. Use the hook tool and start pulling the metal hinge away from the visor, you will need to push the new cover down hard against the visor while pulling up on the metal hinge to engage the hinge and the pin one side at a time. It usually takes me a few tries before I'm successful. The end result is worth the work and will save money. I should also note that if your choice is to use a replacement visor assembly, they have LED mirror lights which contrast to the original more yellow glow.

After completion I use a small brush and apply GM silicone paste to the hinge areas for lubrication. Good luck with your choices.
